### Selection Criteria Definitions and Information

- "A+" Standard or the highest possible standard of performance is based on the average bronze medal performance at the past four games (2017, 2013, 2009, 2005).
- "A" Standard or the second highest possible standard of performance should be based on the belief that if an athlete can reach the final "Top 8" then he/she are in a position to compete for a medal. Subsequently "A" standard is an average 8<sup>th</sup> place at the past four games (2017, 2013, 2009, 2005).
- "B" Standard is based on the final determiner of a successful games i.e. flag points. It is believed by achieving a performance better than the average of 12<sup>th</sup> that they can compete against half of the field. Subsequently "B" standard is an average of 12<sup>th</sup> place at the past four games (2017, 2013, 2009, 2005).
- Selection Criteria 5, 10, 15 – Extenuating Circumstances
  - a. These circumstances must be submitted in writing to the head coach as soon as they are known or anticipated with the minimum date being 2 weeks before the start of the trials. Any request after this time will be heard but will be subject to stricter evaluation. Written submission for request to miss trials due to extenuating circumstances are in no ways guaranteed. Formal documentation will be required for all justifications.
  - b. Circumstances such as illness, injury, or periods of bereavement will not be subject to the same time constraints but must be communicated as soon as possible. Documentation may be required.
  - c. Performance level is an important factor during the assessment of extenuating circumstances. If an athlete with multiple performances beyond the A+ standard has an extenuating circumstance the request will have a far greater likelihood than an athlete with a single B standard.
  - d. Examples of extenuating circumstances include but are not limited to national team events/opportunities, post-secondary educational events, and family emergencies.
